

Dear Parents,

Before-School Sports Activities and Instrument Tuition

During the consultation process which took place before the change of school timings, parents raised the possibility of school providing activities before school. We are now looking into providing activities from 8am each day. We would also provide a light breakfast of toast and a drink. The activities we are considering are;

- Morning sports club from 8am until the start of school. The club would be run by a qualified coach and there would be a cost to parents of approximately £15 per week for children attending for 5 days. As school would need to commit to staffing for this, parents would be expected to pay half termly in advance for this provision.
- Instrument tuition from 8am until the start of school. Tuition would be given by music centre staff as it is currently, and the individual instrument sessions would be once a week (different instruments each day) with an orchestra session for all instruments on a second morning. Parents would be required to commit to lessons for a full school year and pay for them termly in advance (approximately £80 for a term). The second Orchestra practice session would be available free of charge to children taking instrument lessons through our school.

We would like to gauge parental reaction and interest regarding sessions before committing to staffing, and ask that you complete and return the questionnaire below.
