

Dove-Shell Federation Disability Equality Scheme and Accessibility Plan (DES/AP)

The Disability Equality Duty

The Equality Act 2010 came into force in October 2010 and requires all schools to promote equality of opportunity for disabled people. There are three key duties towards disabled pupils:

- Not to treat disabled pupils **less favourably** for a reason related to their disability.
- To make **reasonable adjustments** for disabled pupils so that they are not at a substantial disadvantage.
- To plan to **increase access** to education for disabled pupils including activities outside the normal parameters of the school day.

Accessibility Plan

This policy sets out the proposals of the school to increase access to education for disabled pupils in the three key areas.

- Increasing the extent to which disabled pupils are able to participate in the school **curriculum, incorporating access to outdoor learning and educational visits.**
- Improving the **environment** of the school to increase the extent to which disabled pupils are able to take advantage of education and associated services.
- Improving the delivery of information to disabled pupils and parents in a format appropriate to their needs.

Additional Duties

Part 5a of the Disability Discrimination Act (DDA) requires schools to publish a disability equality scheme which sets out how the school will:

- promote equality of opportunity between disabled people and other people;
- eliminate unlawful discrimination;
- eliminate disability related harassment;
- promote positive attitudes towards disabled people;
- take steps to reduce the discrimination between disabled and non-disabled children and adults;
- encourage disabled people's participation in public life and;
- take steps to take into account people's disabilities, even where that may involve more favourable treatment.

The Scheme covers pupils, staff, parents and users of the school.

Disability Definition

The Disability Discrimination Act defines a disabled person as someone who has “a physical or mental impairment which has a substantial and long term adverse effect on their duty to carry out normal day to day activities”.

- Physical impairment includes sensory impairments
- Mental impairments include mental illnesses and learning difficulties.
- Substantial means more than minor or trivial.
- Long term is defined as 12 months or more.

With regard to our pupils, those children who are at SEN Code of Practice: School Support and/or have an Education Health and Care Plan **will be classified as “disabled”**. Those pupils who are not defined as having special educational needs but who, for example, may have severe asthma; arthritis, epilepsy, severe allergies or diabetes will also be defined as “disabled” in terms of the Disability Discrimination Act.

Not all pupils who exhibit “challenging behaviours” will meet the above disability definition requirement but those pupils, who are as a result of the SEND graduated response and assessment process have been identified as having “social, emotional and behavioural difficulties” will be included in the scope of the DDA disability definition.

Disability Equality Duty Implementation

In addition to our requirements under the Disability Discrimination Act, East Crompton St James’ Primary has:

- Involved pupils, parents of children with additional needs and staff, including those with a disability in producing a Disability Equality Scheme and Accessibility Plan.
- Published the Disability Equality Scheme and Accessibility Plan and made it publicly available including publishing the Disability Equality Scheme on the school website.
- Demonstrated that the school has taken or identified action to achieve the appropriate outcomes and;
- Arranged to report on progress and review and revise the Disability Equality Scheme /Accessibility Plan on an annual basis.

Disability Equality Scheme: Our Vision and Values

At East Crompton St James’ we continuously strive to ensure that everyone in our school is treated with respect and dignity. Each person in our school will be given fair and equal opportunities to develop his or her potential with full regard to gender, ethnicity, cultural and religious background, sexuality or disability.

The school sets challenging targets for all its pupils and expects them to participate in, contribute to and achieve success in all aspects of their school life. We are committed to equal opportunities in its widest interpretation but especially so for our learners by removing any potential barriers to learning and ensuring we seek to respond to their diverse and often complex individual needs.

It is the intention of the school, to ensure that all aspects of school life are equally accessible to everyone and that the school is committed to making reasonable adjustments for all individuals with disabilities. The vision of the school in respect of its disabled members is to ensure that all our disabled pupils, parents and visitors have optimum participation, contribution and achievement opportunities to ensure full inclusivity.

Pupil Information Data

East Crompton St James Primary is a one form entry primary school with 210 pupil places. The school does not have a Nursery, many children attend private Pre-school provision in a range of settings prior to entering reception.

The school is housed in a 1960's building, although adaptations and updates to the building have taken place in recent years. The vast majority of our children are of English Heritage, however, the make-up of the school is beginning to change as children are now coming from different cultural and socio-economic backgrounds.

Pupils with Special Educational Needs (SEN) and those with disabilities (SEND) take a full and active role in all aspect of school life. All pupils make at least good progress from their individual starting points, contribute and participate in whole school or class activities. The achievement, presence and participation of pupils with learning difficulties is equal to that of the majority of their non disabled peers, Carefully considered planning, a commitment towards inclusion and open and collaborative decision making has resulted in appropriate responses to group and individual need. All staff are committed to meeting the needs of all learners through a tailored and personalised curriculum. We have ensured, through continued staff development and regular, rigorous monitoring, that our day to day teaching meets the needs of each learner. Parents and visitors to school have a positive opinion and high regard for the manner in which school attends to the well-being of all its pupils.

Members of staff with disabilities are encouraged to discuss their needs in confidence with the Executive Headteacher who upon behalf of the Governing Body will endeavour to meet their needs as sensitively as possible. East Crompton St James' is recognised as inclusive school.

Consultation

This document has been developed in consultation with the families/ carers of children with identified disability needs and the children themselves in order to gain a good understanding of the views and aspirations of the school community and that these have been taken into account in determining the priorities for improvement.

Accessing the Curriculum (read in conjunction with Inclusion policy)

East Crompton St James Primary school is an inclusive school and is proactive in meeting the needs of all learners including those with SEND. The schools works in partnership with external agencies to ensure that the needs of learners are met and ensure that the schools are inclusive and all learners can access the curriculum.

All staff are committed to meeting the needs of all learners through a tailored and personalised curriculum. We have ensured, through continued staff development and regular, rigorous monitoring, that our day to day teaching meets the needs of each learner. Thorough analysis of achievement and progress in English and Maths has resulted in us implementing a fluid system of interventions tailored to individual needs and ensuring value for money. Frequent data analysis ensures that interventions are narrowing the gap and where this is not deemed to be effective the school makes the necessary adjustments.

Children with specific mobility needs, those who have an Education, Health Care plan or vulnerable groups have their own risk assessments for external visits and have a Personal Emergency Evacuation Plan (PEEP) where necessary. The school uses disabled access transport for visits, allowing inclusivity for all learners.

Supporting pupils at school with medical conditions (See supporting pupils at school with medical conditions policy)

The Physical Environment

East Crompton St James' is a single level building which has been designated as a "barrier free" school. It is not however without some limitations. As space is at a premium the school actively seeks support and recommendations including adjustments to ensure all children are able to access all aspects of learning. For example, recent building work has included the creation of 3 additional group rooms, one of which is at ground level. The school has access to a disabled toilet. The school works in partnership with external agencies to make reasonable adjustments to meet the needs of all learners.

All school building plans or developments take due consideration of the needs of disabled pupils and/or visitors. These plans and developments are monitored to ensure that physical accessibility issues are a key consideration of the planning process.

Improving the Delivery of Information

At East Crompton St James' we will endeavour to make the necessary adaptations when and where required, to deliver information to pupils, parents and visitors in a format suitable to their individual needs. This may be through the use of large print, simplified language, mother tongue, audio tape or individual consultation.

Implementation and Review

East Crompton St James' Disability Equality Scheme and Accessibility Plan will be made widely available and will be published on the school website. A copy will be made available to governors and distributed to all staff. Parents and pupils have been consulted on its implementation and copies are readily available on the school website or upon request. The policy has also been disseminated to pupils through assemblies, inclusive curriculum delivery, practical actions and the class and school councils. The Disability Equality Scheme and Accessibility Plan will be reviewed on an annual basis by the Federative Inclusion Lead and SLT through the school development planning process.

This policy will be reviewed in September 2018 in line with the Accessibility Plan.

Mrs A Laskey
Federative Inclusion Lead
